

Fixing your plates using adhesive pads

Adhesive pads are a convenient and simple way of fixing your number plates. Fixing with pads is the recommended method under BS AU 145e.

Here's our quick guide to fitting:

- 1 Ensure that the surface you are attaching the plates to is clean and dry.
- 2 Ensure the back of the plates are clean and dry.
- 3 Attach the sticky pads to the back of the plate as below.

- 4 Press firmly across the whole plate (with attached pads) and hold for 5 seconds.
